

# ***SYSC 3303 Real-Time Concurrent Systems***

## **Assignment #2 Sample Solutions**

## Part 1 UCM

Note that multiple readers may proceed simultaneously (writers may starve)

### Responsibilities:

- r1 – produce item
- r2 – start writing to database
- r3 – finish writing to database
- r4 – start reading from database
- r5 – finish reading from database
- r6 – consume item

## Part 2 UCM

Note that writers cannot be kept waiting (readers may starve)

Note that multiple readers may proceed simultaneously

### Responsibilities:

- r1 – produce item
- r2 – start writing to database
- r3 – finish writing to database
- r4 – start reading from database
- r5 – finish reading from database
- r6 – consume item

## Part 3 UCM

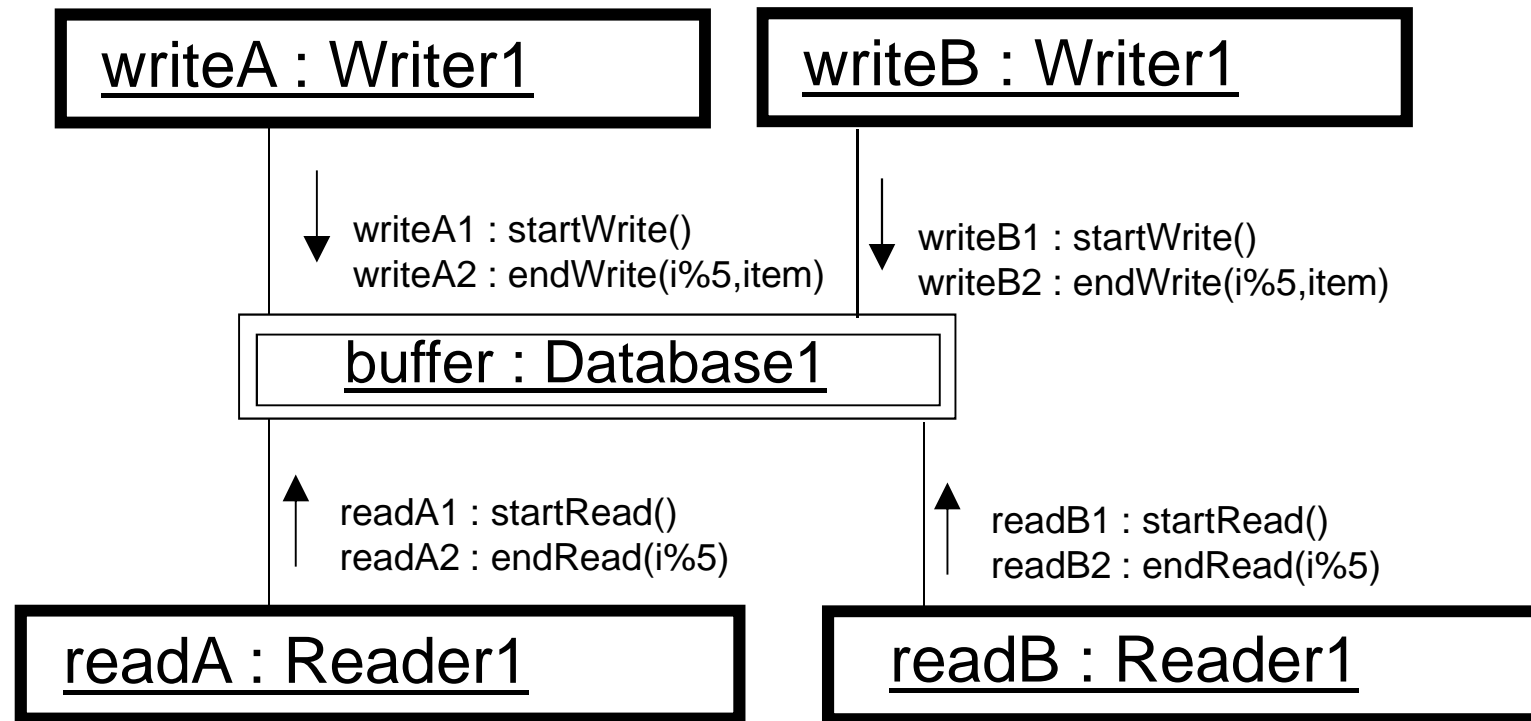

Note that neither readers nor writers can starve

Note that multiple readers may proceed simultaneously

### Responsibilities:

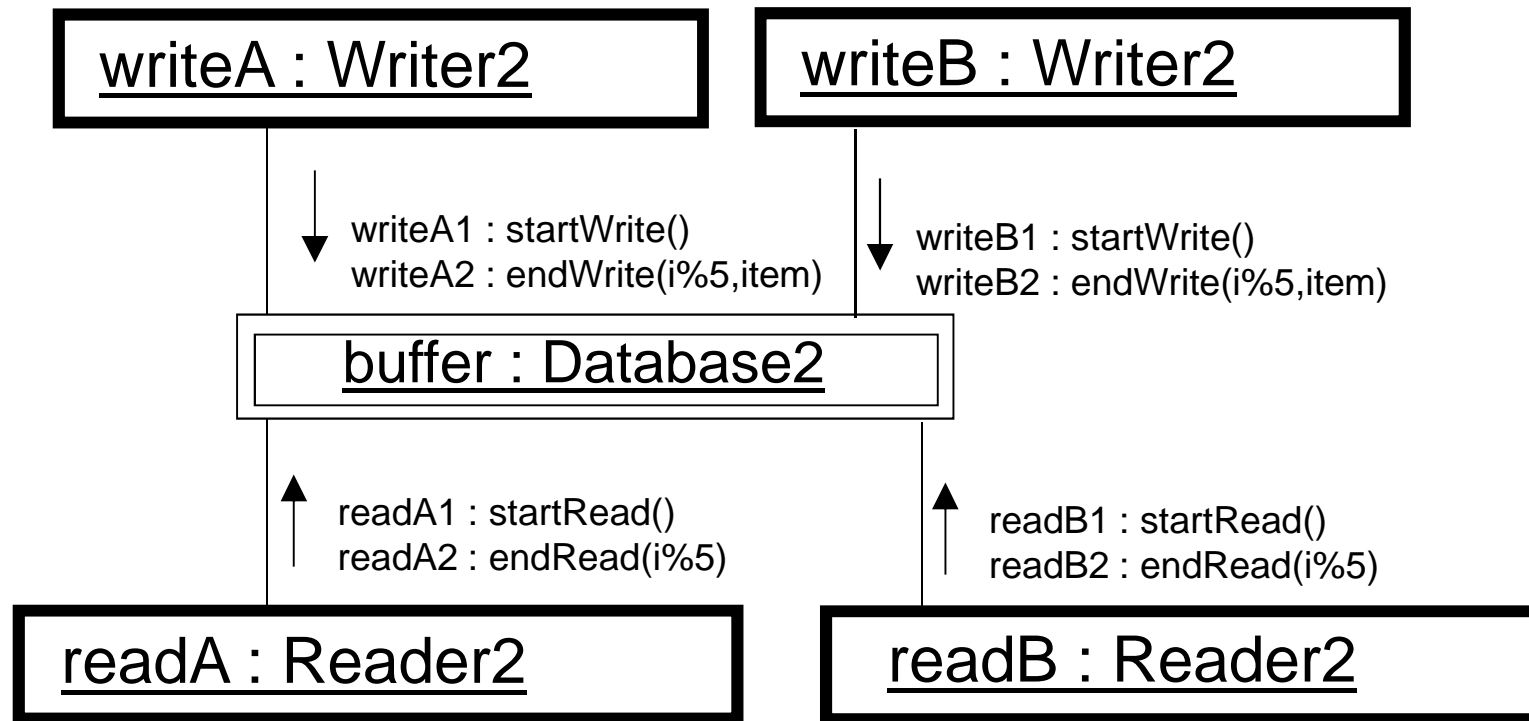

- r1 – produce item
- r2 – start writing to database
- r3 – finish writing to database
- r4 – start reading from database
- r5 – finish reading from database
- r6 – consume item

## Part 1 UML Collaboration Diagram

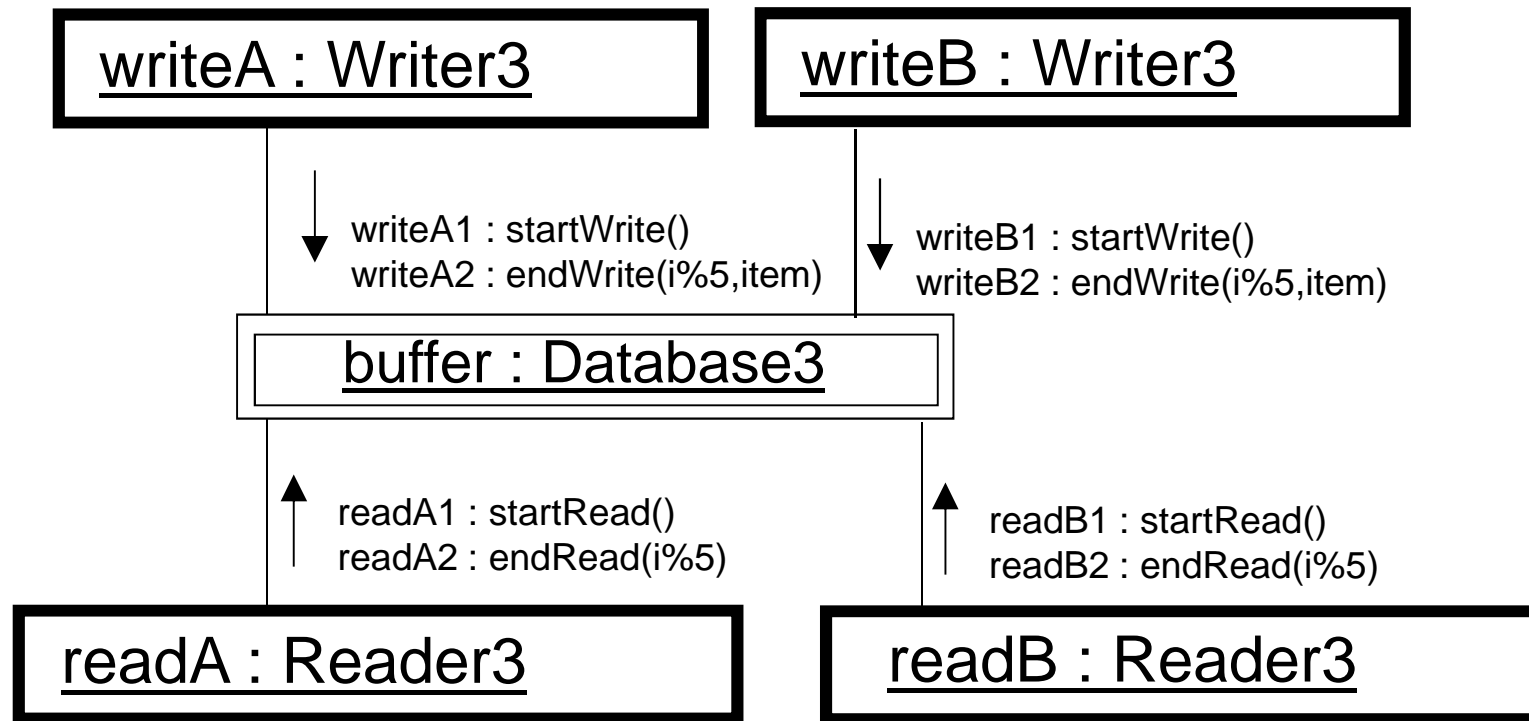

For all readers / writers steps 1 and 2 iterate 10 times.

## Part 2 UML Collaboration Diagram

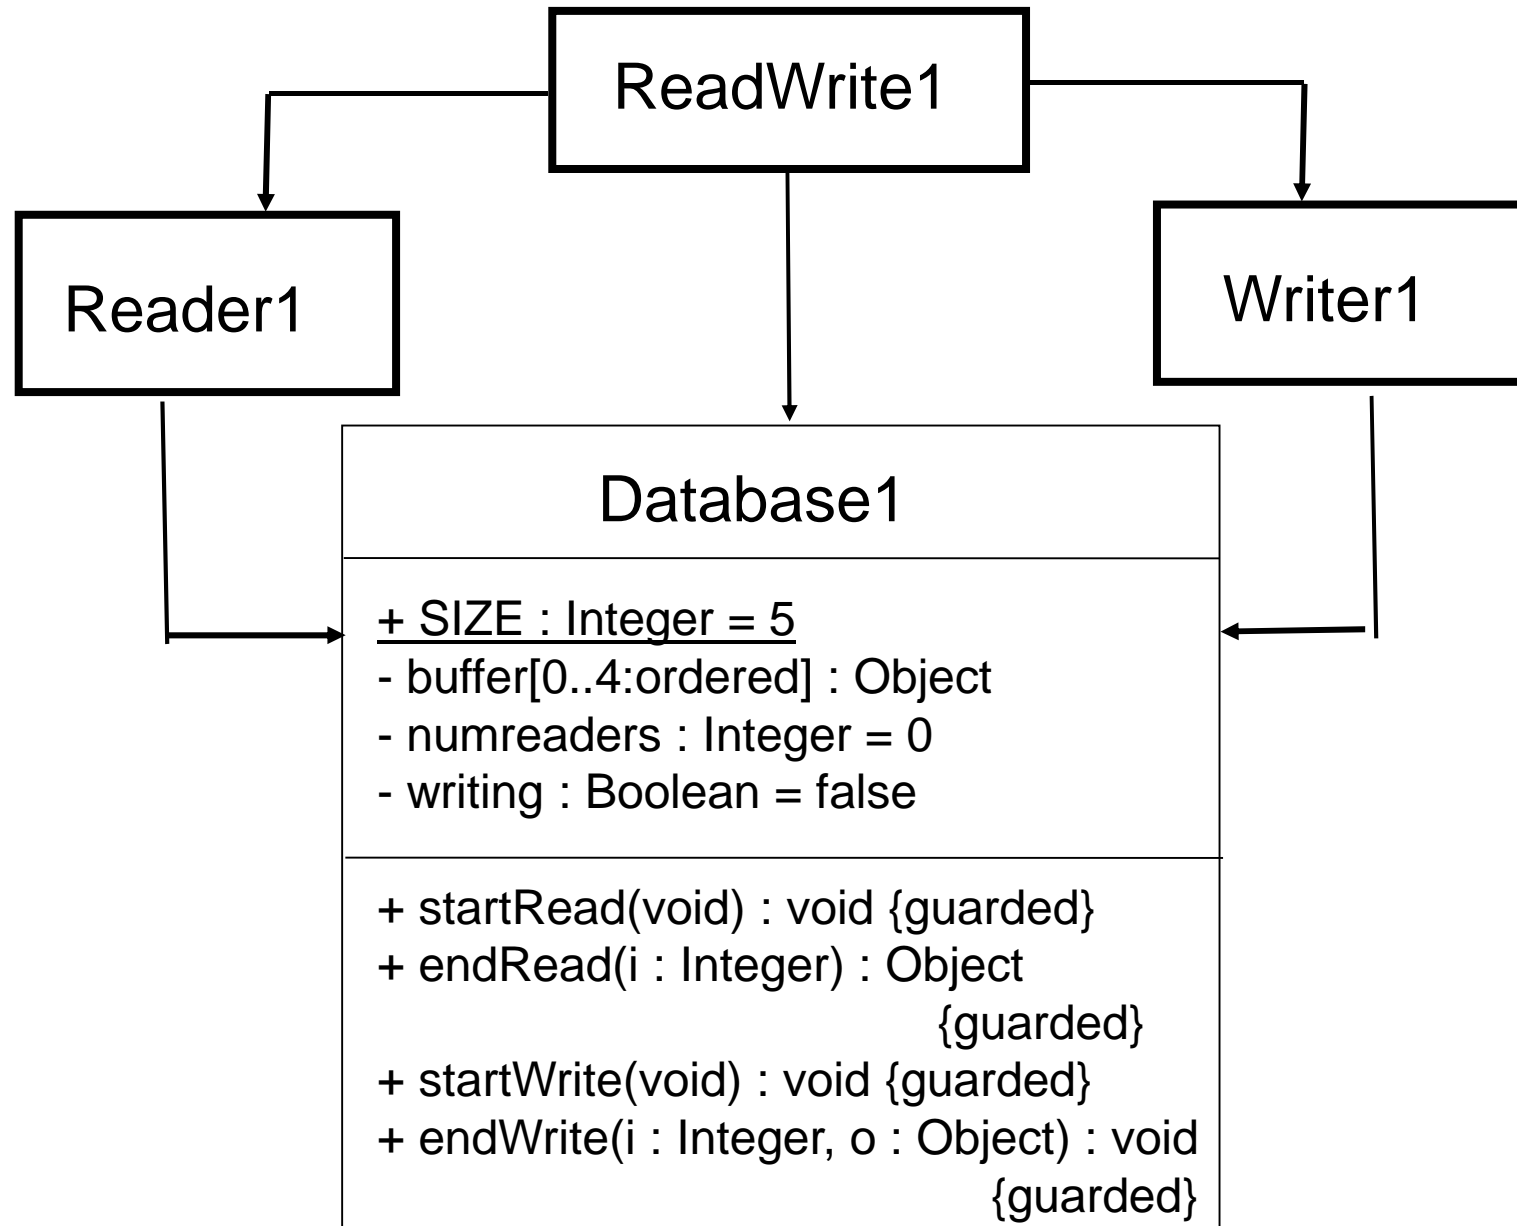

For all readers / writers steps 1 and 2 iterate 10 times.

## Part 3 UML Collaboration Diagram

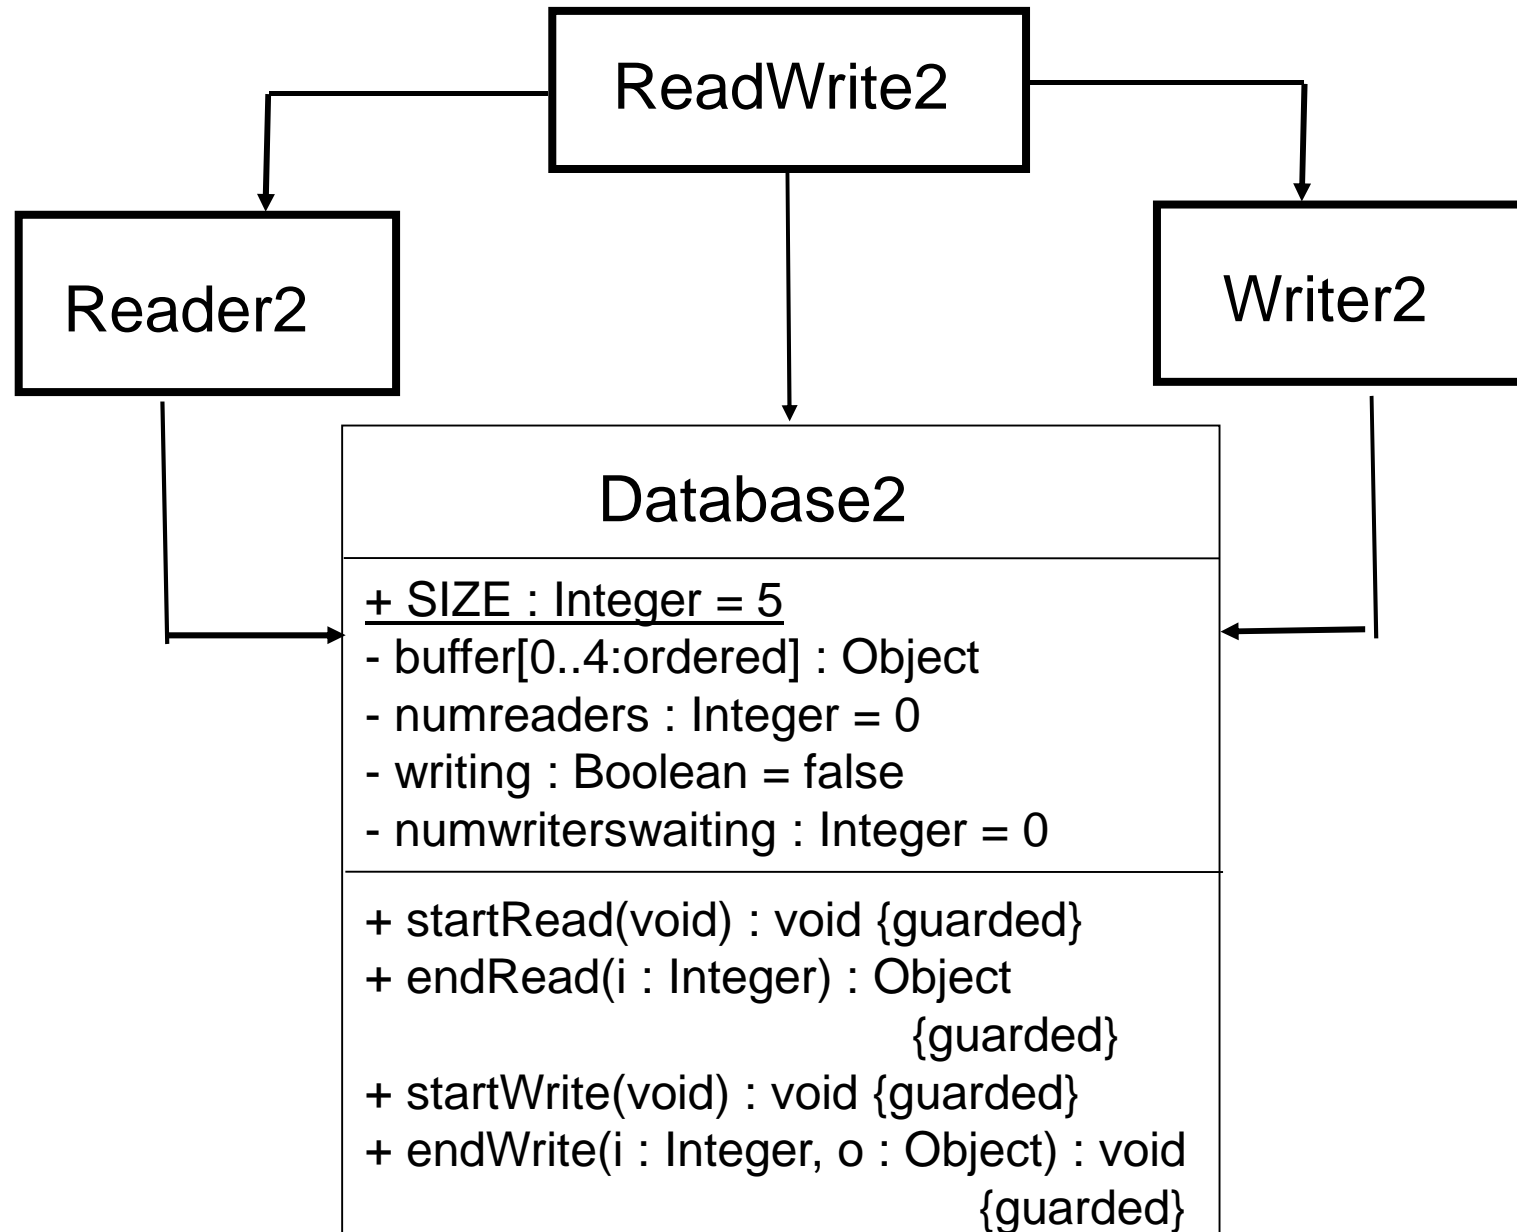

For all readers / writers steps 1 and 2 iterate 10 times.
